

**WANT TO HELP?  
WHY NOT DONATE, VOLUNTEER OR VISIT?**

## WE RECYCLE YOUR ITEMS

### ACCEPTABLE RECYCLABLE ITEMS

While the centre is open to the public at all times, it is preferred to drop off items during school hours, so that the volunteers and students can help. This also ensures items aren't removed by those unrelated to the Centre.

- Aluminium cans and steel
- Stamps and envelopes
- Glass bottles and jars
- Electronic equipment e.g. Computers, laptops, TVs
- Whitegoods, hot water systems
- Cardboard boxes and packing materials
- Car batteries
- Magazines, books, newspaper
- Food scraps for our Brisbane City Council Community Composting Hub

We **DO NOT** process Furniture, Tyres, Paint, Polystyrene, Motor Oils, Fibro, Gyprock, General Builders Waste, Insulation Materials, Acids, Hazardous or Medical Waste.

Through the Kingfisher Recycling Centre, Aspley Special School has been processing the local community's recyclable materials since the school opened in 1974. This collaborative project, between Aspley Special School and committed volunteers, has seen this centre grow into the one of the largest school-based recycling centre.

## WE ALWAYS WELCOME

Recyclable donations for our students

Volunteers to help out

School groups to learn about recycling

Purchase of bottles, jars and packing cartons

Food scraps for our composting hub
