HOW

PATH (Year 10-12)

Students and stakeholders of the child's life participate in a PATH meeting where short and long term goals are set and actions are created. Goals are achieved from Senior Education plans, Personalised Curriculum plans, on campus activities programs, work experience, TAFE, volunteering and leisure and recreation centres.

QCIA (Year 11-12)

Individualised learning programs are developed from the PATH, to demonstrate what students can do ready for post school life. Evidence is collected for each goal and moderated. Students receive their Queensland Certificate of Individual Achievement at the end of Year 12.

Australian Curriculum

Year 10 students are taught curriculum content from the Australian Curriculum. The Year 10 students at Aspley Special School have an Individual Curriculum Plan (ICP) for English and Mathematics.

PROGRAMS THAT ASSIST LEARNING - ON CAMPUS

The PATH process helps teachers, students and parents to decide what senior school pathway best suits the individual student needs. The following programs are delivered at Aspley Special School.

Frothee Coffee Shoppee

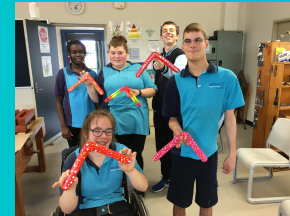

Aspley Special School
Tuckshop

Horticulture

Kingfisher Recycling
Centre

Manual Arts

Students have the opportunity to participate in some Certificate 1 courses if identified through the PATH process.

ASDAN provides flexible and engaging programs suited to the individuals learning through the PATH process. The programs develop skills for learning, work and life. Certification for modules is available.

VOCATIONAL EDUCATION AND TRAINING
